

**UNDERGROUND LIQUID STORAGE**

**Northern Steel**

**PROTECTING TOMORROW ... TODAY!**

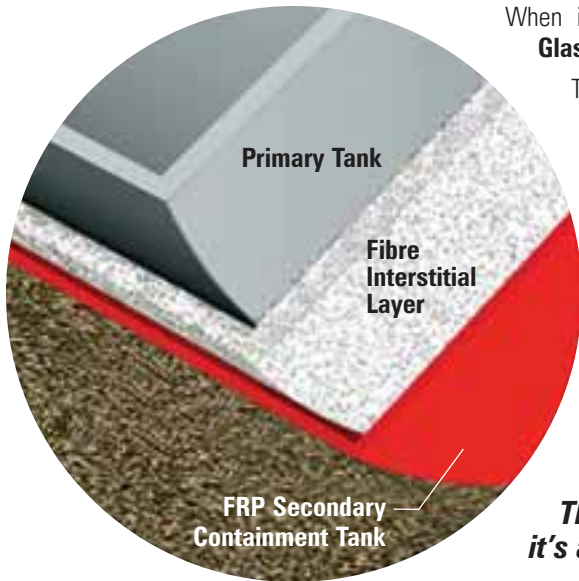

**GLASTEEL II®**

**The most cost effective underground tank installation solution  
with a full 30 year warranty**

**Available In Sizes Up To 106,000 Litres**

## Durable, Dependable Underground Storage

When it comes to the safe and secure underground storage of liquids, Northern Steel's **Glasteel® Series** exceeds all ULC and UL testing criteria.

The tank consists of a strong steel primary tank enclosed within a FRP (*Fibreglass Reinforced Plastic*) secondary containment jacket. A Fibre Interstitial Layer provides added protection and safety.

GLASTEEL II® is the most cost effective underground tank installation solution.

**Broad compatibility with all fuels**, including gasoline, jet fuel, diesel fuel, ethanol, methanol, M-85, and E-85.

Northern Steel's underground storage tanks offer multiple compartment configurations, custom-made to your optimum requirements. Cost-effective product storage with state-of-the-art safety features.

We know that protecting the environment is, and will continue to be, one of the hottest topics our industry faces in the coming decades. That's why Northern Steel's GLASTEEL II® is the finest secondary containment tank available on the market today.

***The Northern Steel Glasteel II® tank is so well engineered and built, it's a shame to install it underground!***
